

EPC Contracts for the Energy Industry

A comprehensive analysis of EPC contracts and of the key considerations in projects and disputes where such contracts are used.

7th - 9th December 2021

E - Learning Course

Major Benefits of Attending

Participants will be able to capitalize on the expert knowledge to gain maximum value on these vital issues:

- Learning, in detail, the issues to be addressed when negotiating EPC contracts
- Developing an awareness of the procurement options for projects and the associated risks and opportunities.
- Considering alternative pricing, incentivisation and risk allocation approaches and learning about current market trends
- Developing an understanding of the current EPC market and the legal risks associated with such forms of contracting
- Learning what the major areas of dispute may be in construction projects and how to manage them
- Developing an understanding of the key specificities of construction projects in your region of the world

Course Methodology

This 3-day e-Learning Course will be conducted via ZOOM - Webinar / Video Conferencing. Delegates are required to have a working Webcam and Headset with Microphone. For a smooth conferencing, delegates should have an Internet Speed of at least 8Mbps Download and 1.5Mbps Upload Speed.

Free takeaways!

A very detailed pack of slides on the key issues arising from projects and disputes where EPC contracts are used

Why you Should Attend?

This course will provide something for participants at every level of experience. For those with no experience it will give them a basic tool kit of what EPC contracts look like, what are the major terms and perspectives of owners, contractors and lenders, as well as familiarity with what the major areas of dispute may be during the construction phase and how to manage them. For the more experienced it will be a masterclass on EPC contracts, covering the key commercial and technical issues in the construction market today. James has vast experience of EPC contracts and can answer literally any question on the subject.

Who Should Attend?

This workshop has been designed specifically for the professionals, management and legal officers of entities in the energy, mining and construction industries, and anybody who has a current or planned infrastructure project or an interest in the same (such as financial institutions or project sponsors), including:

- Executive Directors, Heads of Companies, Commercial Directors
- General Counsel and legal department
- Heads of department: Contract management and administration; Project finance; Procurement; Operations and facilities management
- Government agencies
