Course Methodology

This 2-day e-Learning Course will be conducted via ZOOM - Webinar / Video Conferencing. Delegates are required to have a working Webcam and Headset with Microphone. For a smooth conferencing, delegates should have an Internet Speed of at least 8Mbps Download and 1.5Mbps Upload Speed.

Prerequisite

The trainer will be using and demonstrating entirely in Microsoft 365 software and it is advised that all delegates do the same. Or have a fully functional version of Excel 2016 or 2019 installed on your laptop.

Why you Should Attend?

This workshop will enable you to learn much that you need to know to build great spreadsheets and analytical reports. Microsoft Excel 365 has become a real force to be reckoned with in terms of the advances made over the last two to three years. This course provides you with a chance to upgrade and update your knowledge, skills and techniques. In addition to creating high level analytics, the course will help you to enhance your visualisation skills and help you to create stunning reports and dashboards. All in all, the course will enable you to gain deeper insights into your business and help you to make the right business decisions.

Who Should Attend?

This workshop will be beneficial for analysts, managers, reporting professionals, business owners, executives and anyone responsible for preparing Excel based analysis, visualisation, and scorecards. This training is highly recommended for:

- Finance Directors/Financial Controllers/CFO's
- Business/Financial/Treasury/Market Analysts
- Corporate/Structured/Project Finance Officers
- Financial/Strategic Planners
- M&A Specialists
- Private Equity Project/Commercial Management
- Business Development and Marketing
