

Data Analytics with Power BI & Tableau

Analyze and Display Data using Power BI & Tableau
to make better, more data-driven decisions

17th - 18th April 2024

1st - 2nd July 2024

Kuala Lumpur (In Person) / Online Training

Major Benefits of Attending

By attending this executive training, you will be able to :

- **Understand** Power Business Intelligence (BI) and Tableau
- **Combine** multiple data sources into one dataset
- **Build** interactive reports
- **Perform** Forecasting & What-If analysis
- **Connect** the data to the dashboard, BI tool, or data warehouse of your choice
- **Create** visually stunning dashboards and reports

Why you should attend

Organizations are always looking at ways to gain new customer insights and achieve efficiency improvements in this current business landscape.

Business Intelligence (BI) technologies like Power BI and Tableau collect, integrate, analyze, and present business information. These tools can help you analyze business data and visualize information to gain valuable insights.

Attend this training to learn to create easily updatable, automated and scalable Power BI / Tableau dashboards.
